

### **TC-AIMS II Training Portal Adobe Flash Player Interactive Multimedia Instructions (IMIs)**

In order to achieve the full functionality of the IMIs (available on the TC-AIMS II Training portal located at: [https://software.forge.mil/sf/projects/tc\\_aims\\_ii\\_training](https://software.forge.mil/sf/projects/tc_aims_ii_training))

Please do the following to update your Flash Player settings on your computer(s):

1. Go to this page at Macromedia:

[http://www.macromedia.com/support/documentation/en/flashplayer/help/settings\\_manager04.html](http://www.macromedia.com/support/documentation/en/flashplayer/help/settings_manager04.html)

(**Note:** The image shown on this URL is the actual Flash control panel for your Flash Player - it's not an example image).

2. Navigate to Global Security Settings

3. Click "**Always allow**"

4. Add the parent location to where your files are published (e.g., in most cases just select C:\ or D:\, assuming you're working locally, or whatever the location where your work is stored.)

(It should be noted that in order to achieve maximum functionality (interactions/animations) of these IMIs you will need to do the above. However, you do not have to accomplish the above in order to merely view the TC-AIMS II IMIs.)

These instructions are also located on the TC-AIMS II Training portal located at:

[https://software.forge.mil/sf/projects/tc\\_aims\\_ii\\_training](https://software.forge.mil/sf/projects/tc_aims_ii_training).
